

Meet our interns and "Challenge yourself"

part 1
9 January `20

"With a new vision and even more motivated, we'd like to announce that our internship program "Challenge Yourself" is open again for candidates.

We from ProCredit, however, think that it's not enough to tell you about our internship program in third person. Transparency has always been one of the most important elements in the communication with both our clients and employees. This is why we've decided to meet you up with our interns and let them tell you more about their impressions from the already completed or still ongoing internship program."

“ I learned that one idea should have at least few drafts before the result to be qualitative. ”

Ivayla Velichkova

Risk Management Intern – 8 months (ongoing)

Student – Law – 5th year – Sofia University

“It’s very interesting to become part of a financial institution, because everything here is quite dynamic and challenges are always popping up. Here I work in a team of professionals, communicate easily with my colleagues and feel useful and motivated. My colleagues help me out with every task and make sure I understand how it fits the big picture, e.g. the Bank’s strategy. This gives purpose to my everyday work. Here I learned that one idea should have at least few drafts before the result to be qualitative.”

Mihaela Ivanova

Expert Credit Administration – 1 year (completed internship)

**Bachelor’s degree in Economics and Finance with English –
Sofia University**

“The team in which I was on an internship and now I work can be described as “diverse” – 20 different people who even on the busy days find way to have fun and relax. The great thing about ProCredit Bank is that the attitude towards interns is not different from that towards employees – both from the management team and from the teammates. Things like disregard or underestimation of skills and qualities are absolutely off the table. I would advise the future interns to challenge themselves every day and never stop chasing their goals.”

“ProCredit Bank gave me the opportunity to apply the knowledge which I have gained in the university, as well as to acquire the new ones that I will need for my future realization.”

Mimi Angelova

Risk Management Intern – 1 year 6 months (ongoing)

Bachelor's degree – Financial control – University of National and World Economy;

Master's degree – Finance – UNWE (ongoing)

“I found out about ProCredit from Career Days, as well as from friends of mine who have already participated in the internship program. The everyday life in ProCredit makes you face a lot of challenges, which makes our job responsible, dynamic and intriguing. ProCredit Bank give me the opportunity to apply the knowledge which I have gained in the university, as well as to acquire the new ones that I will need for my future realization.”

More stories from first person are coming soon!
