"The team I work in is comprised of people with many years of experience and lots of knowledge about their jobs, who are eager to pass it on. They are great professionals from whom I learn every day. I like the fact that we work together as a team and help each other out with everything. Thanks to them, I grow not only in my career, but in my personal life. In ProCredit I've learned to take decisions quickly in problematic situations. Working here polishes my communication skills, teaches me how to find the right approach to different people, and how to analyze each issue on a deeper level in order to solve it efficiently. The most important thing I've learned in ProCredit is that professionalism hides in the details and individual approach towards every client."
