

Meet our interns and "Challenge yourself"

part 4
19 June `20

"The stories of the day are about three girls who studied in different universities but all have chosen ProCredit Bank for the beginning of their career development. You can meet them and catch up with their expectations, experiences and impressions now." ->

Diana Panova

Credit Risk Intern – 1 year and 3 months (ongoing)

Bachelor's degree – International Economic Relations – UNWE;

Master's degree – Finance – UNWE (ongoing)

"The internship at ProCredit helps with university education, gives useful knowledge and updates on the economic situation in our country, which is very important to me, because I believe that everyone should be economically aware and in tune with the economy trends. The work here is dynamic, interesting and shows the economy from all perspectives – as you know it from theory and what you can't see behind the curtains. This is something you can't find at every workplace."

Ekaterina Angelova – Client Adviser Intern, Ruse Branch – 6 months (ongoing)
Master's degree – Financial Management - D. A. Academy of Economics - Svishtov, Bulgaria

"ProCredit challenged me to grow and not stop when it gets difficult. In the beginning, I was insecure about my knowledge and skills. Over the course of my work, I've learnt so many things that I've previously only read about in university, and now I know how they work in real life. The dynamics of the working day is motivating, and when the day is over, you're ready for something brand new on the next day."

Vyara Kostadinova

Client Adviser Intern, Ruse Branch – 6 months (ongoing)

Student – Financial Mathematics (4th year) - "Angel Kanchev" University of Ruse

"The possibility for flexible work schedule is one of the main reason to choose this internship. My work here doesn't harm my education in any way. On the contrary, I've had the chance to see how things work in a real work environment and apply theory in practice, which led to better academic results. I'd advise all future interns to be active and not be afraid to ask questions, because all colleagues are great and eager to help. They quickly managed to make me feel like part of the team."
